VIRTUE AUTOTURN LTD

Russian Originated Materials Statement

European Council Regulation (EU) 833/2014

The above regulation prohibits the purchase, transfer or import of goods that originate or are exported from Russia.

In response to recent government announcements regarding the further strengthening of sanctions imposed on Russia effective 1st October 2023, we wish to assure our customers that metals (aluminium, stainless steel, copper, and brass) purchased by Virtue Autoturn Ltd for the fulfilment of orders do not originate from Russia.

We have sought and obtained written confirmation from all our material suppliers that Russian originated metals are no longer sourced and as such excluded from any supplies to Virtue Autoturn Ltd.

Virtue Autoturn Ltd confirm that we are fully aware of the current restrictions and requirements and assure our customers of our continued commitment to actively manage our supply chain to ensure there is no inherited risk of exposure to Russian originated metals.

The validity of this statement extends indefinitely, and any breach or change of this declaration will be advised to our customers immediately.

Simon Binny, CEO, Issue 4, 1/8/2026
